Discipleship Insights

- This study is a great way to see the land of Israel and the place where Jesus would have walked in the 1st Century. Consider using some historical maps to show your group where each of these sites are located.
- There are a few extra videos in this study that are not a part of the 10-week sessions. Encourage your members to watch these videos on their own time and come to your group sessions with some questions.
- Encourage your group to journal and pray throughout this series. What new things is God teaching you through this study?
